

# Circadium

SCHOOL  
● OF  
CONTEMPORARY  
CIRCUS

## The only higher-education program for circus in the U.S.

Join an energized community of artists, performers, advocates, and audience members as we celebrate the first anniversary of the only higher education program for circus in the United States.

Established in Philadelphia - a city of many firsts! - Circadium opened its doors in September 2017 to train the nation's next generation of circus artists.

### This is a unique sponsorship opportunity.

The influence of circus is increasing in popular culture and in all performance art disciplines. Crossing all demographics, speaking to all cultures with its physicality and virtuosity, circus has a uniquely vital role to play in the future of live theatre. Your generosity and partnership supports the young artists who will continue to re-invigorate the art form.

### The November 3, 2018 Gala will offer:

- An original, immersive, contemporary circus performance by acrobats, aerialists, jugglers and wirewalkers
- VIP pre-event cocktail party and post-event dance party
- A chance to learn more about the school from faculty and students
- A way to demonstrate your support of such an important art form to the many gala attendees

### During the Gala, the entire building is transformed into a performance space!

Set in leafy, historic Mt. Airy, Circadium is housed in a sprawling, majestic structure that was once a church, and features 30,000 square feet of classroom and studio spaces as well as a 40 ft high ceiling in the sanctuary for aerial training.
